1. How did you find the exercise in terms of enjoyment, ease, learning, usefulness, etc.?

    I find it very interesting and fun! But then again, I was already beating the clock when I did the lab exercise so I hope next time I will be able to do the LabEx earlier so I can finish until the bonus part.

2. How long did it take you to finish each item?

    It took me more than 3 hours I guess. So that's 9 hours over all.

3. How could this exercise be improved?

    I think more basic methods should be provided in the lab guide so that it will not take us a lot of time to search for those needed methods.

4. State until which part of the exercise were you able to finish:

    A. Checkpoint 1 (Word List Fetching, 30pts) - Yes

    B. Checkpoint 2 (Hintless Wordle, 30pts) - Yes

    C. Checkpoint 3 (Barebones Game, 40pts) - Yes

    D. Bonus (Complete Game, +20pts) - No
